

Soroptimist International of Greater Las Vegas, partners with Teens Helping Teens

This year, Teens Helping Teens (THT) is one of SIGLV's service projects. THT was founded by two sisters several years ago as a school project to provide assistance by teenagers to homeless and displaced teenagers who are trying to attend school. The project grew quickly and is now a nonprofit 501c3 organization, providing assistance directly to teens, by teens, who have little or just the clothes on their backs.

supplies, food, homemade fleece blankets and special survival kits for winter, summer and the holidays. All this is done from their garage with the help of other teens. One of their wishes is for the donation of an enclosed box trailer so they could go mobile with their goodies in a recognizable vehicle and be able to have everything on hand when doing outreach to the teens on the street.

THT works community wide, going directly to the streets, and supports other non profits, such as Safe Nest, YMCA, Big Brothers/Big Sister, Partners for Homeless Youth and many more. Their help is in the form of donations of teen appropriate clothing (teens want to look cool and fit in), school

Currently, collections are underway for Winter Survival Kits. Their goal is to make 100 and they hope to start delivering them the first of November, but will continue their collection through the colder months to make sure the homeless and displaced teens have what they need throughout the winter.

Right Now We can Help Them Make a Difference!
